

FreeNAS - Bug #53595

Detach geli providers after locking pool

10/24/2018 05:12 PM - Waqar Ahmed

Status: Done	
Priority: No priority	
Assignee: Waqar Ahmed	
Category: Middleware	
Target version: 11.3-ALPHA1	
Seen in: Master - FreeNAS Nightlies	Needs Merging: No
Severity: Med High	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description When we lock a pool, it does not detach geli providers which results in undesired behaviour in both UI and the backend system as the system does not interpret it as a locked volume	
Risk We risk making the pool in question unusable	
Acceptance Criteria A pool should be made and then locked. After locking it should be ensured that the UI is not displaying any errors for the pool and is stating it as locked (UI as in legacy UI). Once that has been confirmed, the pool should then be unlocked and it should unlock as desired.

Detach geli providers after locking pool

This commit ensures that after we have exported our pool while locking a pool, we detach the relevant geli providers.
Ticket: #53595

History

#1 - 10/25/2018 08:34 AM - Bug Clerk

- Status changed from In Progress to Ready for Testing

PR: <https://github.com/freenas/freenas/pull/1958>
