- Category changed from Middleware to GUI (new)
- Status changed from Not Started to Unscreened
- Assignee changed from Brandon Schneider to Erin Clark

Erin: The jail MW plugin and iocage both seem to be DTRT. The UI may be sending the wrong call.

**#9 - 11/30/2018 12:40 PM - Erin Clark**

- Assignee changed from Erin Clark to Lola Yang

Lola can you verify that it is making the right call?

**#10 - 11/30/2018 12:49 PM - Lola Yang**

- Category changed from GUI (new) to Middleware
- Assignee changed from Lola Yang to Brandon Schneider

we use this call 'jail.update\_to\_latest\_patch', and it's the correct call. Brandon will make the middleware extended.

Roman: When U2 comes out shortly, can you try it there and tell me if you see the same behavior? I'm not currently seeing this.

I have the same problem as Roman, for plex plugin, and upgrading to 11.2-U2 didn't help. at first I had the bug "UnboundLocalError: local variable 'bridge\_cmd' referenced before assignment" which I resolve by changing vnet\_default\_interface to "auto". updating the plugin after that did not work, same problem as in 11.2-U1

I was merge here from the bug [#67548](#) if that matter.

Ok, now my internet is back up, I have installed 11.2u1 and I get the same behaviour as before.
