

FreeNAS - Bug #58167

Some documentation mistakes in AFP Shares section (Use as home share / Time Machine Quota)

Description	
Here: http://doc.freenas.org/11/sharing.html#apple-afp-shares	
1) it lists a setting named "Use as home share". I don't see that option in the web UI in either basic or advanced mode. I do see it for SMB but not AFP. Maybe it's copy-pasto from the SMB docs?	
2) the "Time Machine Quota, GiB" setting is not listed in the table
