FreeNAS - Bug #60417

Ensure crontab contains created Cron Jobs

11/28/2018 09:04 AM - Dru Lavigne

Status:	Done			
Priority:	No priority			
Assignee:	Waqar Ahmed			
Category:	Middleware			
Target version:	11.1-U7			
Seen in:	Master - FreeNAS Nightlies	**Needs Merging:**	No	
Severity:	High	**Needs Automation:**	No	
Reason for Closing:		**Support Suite Ticket:**	n/a	
Reason for Blocked:		**Hardware Configuration:**		
Needs QA:	No	**ChangeLog Required:**	No	
Needs Doc:	No			

Description

Cron jobs created in legacy/new UI are not being reflected in /etc/crontab and thus they don't execute as desired.

Risk

We risk breaking how cron jobs are written to crontab and thus finally executed

Acceptance Criteria

A cron job should be created i.e `touch /tmp/abc.txt` and it should be seen that does that file exist. After that, it should be checked that the changes of cron job are currently reflected in /etc/crontab i.e how the cron jobs are supposed to run weekly, monthly etc

- Status changed from Ready for Testing to Passed Testing

- Needs QA changed from Yes to No

I tested the cronjob API v1 and also the old and new UI, everything works fine.

- Status changed from Passed Testing to Done

#5 - 01/31/2019 05:19 PM - Claas Lisowski

I updated from 11.1-U6.3 to U7 and was unable to enable/disable any existing crontab via ui (haven't tried API).
The error message was something like "User xxx could not be found".
I tried root user and other users but same result.
This happened for crontabs which existed before the update to U7.
I haven't created new crontab - I had to revert to U6.3 and all is fine for now.

Sorry that I can't offer log files or debug output.

Hello Claas. Can you please file a new ticket with details and a system debug ? (system -> advanced -> save debug) Thank you

#7 - 02/02/2019 03:47 AM - Claas Lisowski

Done, ticket is https://redmine.ixsystems.com/issues/73389

#8 - 02/02/2019 03:49 AM - Waqar Ahmed

Thank you, we will have it resolved as soon as possible.
