Description I'm on FreeNAS-11.2-RELEASE (Build Date: Dec 5, 2018 21:28), and installed the plex plugin shortly after upgrading to 11.2. I can see that an updated version is available from the Plugins > Available screen, but using Update from the Jails screen seems to have effect although "Jail updated successfully" is reported. If this is a known issue, please also put a bug link in the forum, https://forums.freenas.org/index.php?threads/cant-update-plex-on-freenas-11-2.72133/

History

#1 - 12/21/2018 10:12 AM - William Grzybowski

- Status changed from Unscreened to Closed
- Target version changed from Backlog to N/A
- Reason for Closing set to Duplicate Issue

At this time is not possible to upgrade plugins from UI. This feature should be present in 11.2-U2.
