

## FreeNAS - Bug #68221

### Creating Virtual Machine fails when RancherOS image download fails

01/07/2019 12:00 PM - Bug Clerk

<b>Status:</b> Done	
<b>Priority:</b> No priority	
<b>Assignee:</b> William Grzybowski	
<b>Category:</b> Middleware	
<b>Target version:</b> Master - FreeNAS Nightlies	
<b>Seen in:</b> 11.2-RELEASE-U1	<b>Needs Merging:</b> No
<b>Severity:</b> Low Medium	<b>Needs Automation:</b> No
<b>Reason for Closing:</b>	<b>Support Suite Ticket:</b> n/a
<b>Reason for Blocked:</b>	<b>Hardware Configuration:</b>
<b>Needs QA:</b> No	<b>ChangeLog Required:</b> No
<b>Needs Doc:</b> No	
<b>Description</b>	
When attempting to create a new Virtual Machine using the "Docker Host" wizard type, the process fails with the following error:	
<pre>[EFAULT] Failed to download http://download.freenas.org/bhyve-templates/rancheros-bhyve-v1.4.2/rancheros-bhyve-v1.4.2.img.gz (retries=3)</pre>	
No errors are logged in either /var/log/messages or /var/log/middlewared.log.	
The associated URL is accessible from the same machine (for example, the image may be downloaded from the above URL through curl/wget on the CLI).	
Steps to reproduce:	
<ul style="list-style-type: none"><li>• Select Virtual Machines from the left sidebar, then click the "+" icon to add a new VM</li><li>• Select "Docker Host" wizard type and continue through the wizard, selecting defaults options (and names/paths as appropriate), to configure the new VM</li><li>• At the final screen of the wizard, click the "Submit" button. A modal will now pop up (at least, on my machine), containing the above error message.</li></ul>
