Description	
Seen in TrueNAS TrueNAS-11.1-U7-INTERNAL2	
At the top of The Proactive Support page there is "Call iXsystems to upgrade to Silver/Gold support." At the bottom there is an inactive button that says "Upgrade to Silver/Gold support for this feature" I'm suggesting that we remove the inactive button if they can only activate it by calling ix systems or activate the button if there is a way for the customer to activate it that way.
