

FreeNAS - Bug #71483

LAGG interface alerting not working

01/22/2019 04:11 AM - Bug Clerk

Status: Done	
Priority: No priority	
Assignee: Vladimir Vinogradenko	
Category: Middleware	
Target version: Master - FreeNAS Nightlies	
Seen in: 11.2-RELEASE-U1	Needs Merging: No
Severity: Medium	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description	
Testing some monitoring scripts and discovered that breaking the LAGG (in this case by airgapping one of the NICs on the LAGG) does not result in an alert as expected (set to IMMEDIATELY in alerting settings). Looking at the interfaces page, the LAGG correctly shows as down, but alerting does not show any information about the LAGG being broken.
