

FreeNAS - Bug #78141

Update converters/convmv to version 2.05

03/01/2019 06:41 AM - vicmarto .

Status: Ready for Testing	
Priority: No priority

Severity: Low	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description	
Please, would be possible to update the convmv pkg to the last version (2.05)? This 2.05 version is the current version in FreeBSD: https://www.freshports.org/converters/convmv/	
I'm experimenting some problems that this version resolves, from its change log:	
<pre>- allow NFC/NFD conversion on APFS volumes, add man page section for that filesystem</pre>	
This problem do not happens only with APFS volumes, it's happening to me in FreeNAS, with zfs volume withthe property "normalization=formD" shared via NFS, and a macOS client.	
Thanks!!
